ABOUT US

AgriHort Solutions Australia is an independent horticultural consultancy. We work with horticultural producers and industries Australia wide to improve productivity and profitability.

AgriHort Solutions is operated and owned by Shane and Liz Singh. Shane and Liz are qualified; both holding a Bachelor of Rural Science from the University of New England. Shane and Liz individually have over 18 years' experience in the agriculture sector.

AgriHort Solutions has a strong passion for Australian horticulture, supporting environmental and farming sustainability, while focusing on the best impacts for dollar value.

We partner with clients to develop personalised agronomy advice and reporting, developed from on-farm evaluations to maximise crop health and yield.

Our clients can be assured of our confidentiality, our hard work, our innovation and our integrity.

Our mission for clients is to start **Harvesting results!**
